To Whom It May Concern:

We have known Tim Bobroske for almost twenty years. We chose Tim to build our commercial and residential building on Route 6 in Bristol. Throughout the construction process Tim was helpful and instructive. He skillfully guided us through several challenging aspects of our site development and was always professional, responsive, and diligent during the project. We recently had an emergency drainage problem at our building. We called Tim and although he was busy with other projects he immediately responded and helped us to quickly repair the situation. Tim takes great pride in his work, even well after it has been completed. We would recommend Tim to anyone who is contemplating a building project and wants quality work done by someone with talent, skills and expertise.

Very Truly Yours,

William A. Hamzy
